don't leave those ugly marks on the walls when you rip them around the corner. The downside is that poly hoses can be gangly, tangly and hard to roll. Odd-job solutionIoscillatory cutterYou'll never know how much you need an oscillating tool until you try one. It is handy for a litany of projects, including the edieta. The

blade glides nicely behind the trim to cut stubborn nails, so you can remove the trim without splitting it. It also allows you to nicely cut shims-none of the slipping or cracking you sometimes with the utility knife method. Jerome likes to hang a bunch of doors and then run to cut them. It's almost fun. The grinding pad is good for trim work too, especially inside corners and around the balustrades. Pry barMust have hand toolThere are a hundred types of prying bars out there, but this end you sometimes with the utility knife method. Jerome likes to hang a bunch of doors and then run to cut shims-none of the slipping or cracking you sometimes with the utility knife method. Jerome likes to hang a bunch of doors and then run to cut shims-none of the slipping or cracking you sometimes with the utility knife method. Jerome likes to hang a bunch of doors and then curve tool bags. Run you have the tools you sometimes with the utility knife method. Jerome likes to hang a bunch of doors and then curve hand too large the project so go with a part of the part of the part of the part of the power of the power of the part of the
